Subject: RE: FWM Conference Call

OK, thanks. I will let people know that we will not have substantive discussion of the more broad FWM issues tomorrow, but EPA may touch on them as an FYI for some future discussion. Thanks, Jim.

We will be keying up the other issues, but plan to have follow-on discussions.

Subject: FWM Conference Call

Good afternoon Kristine. I left you a voice message earlier this afternoon with a question about tomorrow's conference call. We set this call up to discuss the FWM in regards to dioxins and furans. You mentioned the other day that EPA may have additional comments on the FWM as a whole. Do you plan on limiting tomorrow's discussion to the D/F aspects of the FWM, or will we get into the more broad discussion of FWM? If the latter then the LWG will likely have additional folks call in.

Thanks,

Jim McKenna
